

Round 1(Technical)

1) Introduce yourself briefly?

2) Explain your Engineering project? Block diagram, architecture, flow.

Asked questions related to project in detail.

3) Explain your CDAC project? Block diagram, architecture, flow.

Asked questions related to project in full detail.

Which header files you have include?

In which language you have written code and what softwares you have used in your project?

How much you rate yourself in C?

4) Types of Storage class. Explain all?

5) Use of register storage class.

6) Difference between Extern and static .

7) Why there is a need of extern when we can directly declare a variable globally.

for ex:

```
int a = 10;          extern int a;
main()              int a = 10;
{                   main()
{
}                  }
```

8) write a program to reverse a string?

9) what do you understand by scope of a variable?

Find Output

```
int main()
{
    int a = 10;
    {
        int a = 20;
        printf(" %d ", a);
    }
    printf(" %d ", a);
}
```

10) Explain Structure and union ? Difference between them , Where we can use union?

11) What is structure padding? give example.

12) Explain Semaphore and mutex? Difference and their uses?

13) Types of semaphores.

14) What is difference between OS and RTOS?

15) What is cpu scheduling and its types ? Tell me Cpu scheduling policies?

16) Explain Process and threads?

Round 2(Technical + HR)

- 1) Tell me briefly about yourself?
- 2) You have one year gap, What you were doing at that time?
- 3) How many projects you have done during cdac course?
- 4) Explain your project? Some questions related to project working and components?
- 5) Which software you have used?
- 6) Which module do you like the most?
- 7) How many Operating system are you aware of ? How many you know in detail?
- 8) What you have done in OS? How you have compiled it?
Which tool you have used to compile it?
- 9) Difference between segmentation and paging?
- 10) What is stack and heap, difference between them?
- 11) What is function activation record ?
- 11) Explain Static keyword, its use and difference between static and extern?

HR

- 1) Why you have done only one project in cdac?
- 2) What was your team size? How much % was your contribution in your project?
- 3) In which field do you like to work? Where do you see self yourself after 3-4 years?
- 4) Are you okay with what we are offering?
- 5) Are you ready to relocate?
