

- 1.linked list traversal
- 2.tree traversal
- 3.write your own memcpy() function
- 4.string traversal,concat,reverse etc.
- 5.Pointers (array and string)
- 6.Bitwise operators
7. Swap the nibbles of single byte
- 8.OS concept
9. Socket syscall
10. TCP/IP
- 11.RTOS concept and diff between OS and RTOS
12. Device drivers and USB driver
13. What is mutex and explain the internals.
14. Diff between process and task/thread.
